

15th Annual Prostate Cancer Walk - A Success!

The 15th Annual Prostate Cancer Walk, held on Saturday, September 21, not only raised vital funds for local patients and ensured continued funding for our prostate cancer support groups, but also created a community of hope and solidarity. Seeing so many dedicated individuals come together for this important cause was truly inspiring. Thank you to our generous sponsors, volunteers, and everyone who participated. Together, we are making a difference!

About the Care Fund

The Care Fund is making a meaningful difference in the lives of those facing health challenges. Supporting this initiative, which provides assistance to local patients in need, not only uplifts individuals, but also strengthens our community as a whole. [Learn more about the Fund...](#)

"Premier Cares Foundation is a valuable resource for the families in need. The financial assistance helps when no other resource is available. When medical treatment has exhausted the family's budget, Premier Cares Foundation can pay the electric bill or phone bill, just to mention just a couple of instances. Imagine being in treatment and being at risk of losing contact or having the power shut off. Thankfully, there is help available."

- Elizabeth Spira, CEO of Community Action Partnership for Dutchess County.

Give Back Where it Counts in October

Premier Cares Foundation has been selected to benefit from ACME'S GIVE BACK WHERE IT COUNTS Reusable Bag Program, which makes it easy for shoppers to contribute to our local community.

For the month of October, whenever a GIVE BACK WHERE IT COUNTS reusable bag is purchased at the ACME at 13 North Ave. in Pleasant Valley, \$1 will be donated to our Foundation. This is a great way to broaden awareness and help our cause!
